

Dear Ajit Pai and FCC Commissioners,

I am writing to inform you of my support for Net Neutrality and my support of Title 2 regulation for the internet. Please do not allow corporations to have jurisdiction over which sites I access, and which sites I can go to the fastest. Controlling speed of communication between sites is a terrible idea for startups, consumers, small businesses, and everyone who relies on the internet.

Please understand that classifying the internet as a public utility under Title 2 will allow access to a free and useful internet for generations to come. Corporations are not people, and as a citizen of the United States, I am asking you to keep the internet free. I am pro net neutrality!

Thank you for reading and have a great rest of the week.

From,

Monique O'Conner
